THE "MORRIS SPECIAL."

The attention of paper and pulp manufacturers is called to this new pump, designed expressly for use in paper and pulp mills. This pump is a new departure in many respects. It will run equally well in either direction. We claim that it will take less power, last longer and needs less repairs than any pump at present manufactured. Every part is made extra

heavy; the case especially being very thick and securely bolted. The bearings are long and fitted with removable bushings, which can be taken out quickly, and with little trouble, for examination or renewal. An extra set of these bushings is furnished with each pump. The shaft is of large diameter, and the stuffing box is of an improved design, which can be repacked without disturbing the shaft. Send for catalogue containing full description, illustrations and prices.

PREFACE.

WE PRESENT herewith the TWENTY-FIFTH Annual Edition of LOCKWOOD'S DIRECTORY of the Paper and Stationery Trades for 1899-1900, and offer our usual summary of changes in firms and among the mills in the United States and Canada during the past year.

Following is a comparative statement of this year with last preceding report of mills in the United States:

	1898.	1899.
Number of Mills,	1,174	1,169
“ “ in operation, . . .	1,067	1,069
“ “ idle,	107	100

The mills reported, as above, are owned or operated by seven hundred and sixty-two firms or establishments, this being a decrease of forty-five in the number of firms. There are one hundred mills reported as being idle—a decrease of seven from last year. Twelve mills have been abandoned. Twelve were destroyed by fire, four of which are rebuilt. Our reports show that there is an increase of two in the number of mills in operation from this time last year. There are now four mills under construction.

There are ninety-three mills in the Dominion of Canada, owned or operated by forty-nine firms or establishments. Four of these mills are idle. One mill has been abandoned since last year. One was destroyed by fire, but is rebuilt, and two mills are now under construction.

We also give a list of mills in the United States of Mexico, in South America, and in Japan.

Following our custom we have made a separate record of mills which have been reported to be idle. Under this head will be found locations of mill properties which may still be made available for paper making, or which can be utilized for other purposes. This separation also tends to make the list of mills actually in operation all the more valuable.

We continue to make a separate list of Pulp and Chemical Fibre Mills.

The Index to Mills will be found very complete, and should always be consulted when looking for individual firms.

In this edition will be found a list of Paper Dealers and Stationers, wholesale and retail; Manufacturers of Glazed, Coated, Waxed and Parchment Papers and Cardboard; Blank Book, Paper Bag, Paper Box, Enve-

lope, Pad and Tablet Manufacturers; Wall Paper Printers and Railroad Purchasing Agents in the United States.

The business announcements have been classified carefully, and this list constitutes the **BUYERS' GUIDE TO FIRST HANDS**, and will be found of great use in placing orders. An Alphabetical Index to Advertisements appears as usual.

For all additional statements of changes in the trade, current news, technical articles and market reports, we refer our subscribers to the columns of **THE PAPER TRADE JOURNAL** (every Thursday) and **THE AMERICAN STATIONER** (every Friday).

Advices as to changes, removals and business orders for insertion in the next edition should be sent in on or before April 1, 1900.

The Paper Trade Journal

FOUR DOLLARS A YEAR

It is Indispensable to all Interested in Paper

EVERY MAN IN A PAPER MILL NEEDS
IT, FROM THE SUPERINTENDENT OR
MANAGER TO THE APPRENTICE *

Every manufacturer of PAPER, every man who BUYS PAPER, or pulp or raw material of any kind, used in the manufacture of PAPER, will find THE PAPER TRADE JOURNAL invaluable.

Every man who SELLS PAPER or paper mill supplies of any kind needs it.

Every BUYER OF PAPER, or paper stock, or paper-making material of any kind, will get invaluable information every week from THE PAPER TRADE JOURNAL, and hence should not be without it.

Every manufacturer of machinery of any description used in Paper Mills should subscribe for and advertise in THE PAPER TRADE JOURNAL.

IT IS INDISPENSABLE TO PAPER MAKERS
PAPER MERCHANTS
MACHINE BUILDERS

And all others directly or indirectly interested in the Paper and Paper
Stock Trades

IMPORTANT FEATURES

Established in 1872, THE PAPER TRADE JOURNAL is the pioneer publication in its field, and has for years been the recognized organ of the American Paper Trade. As a medium of information in its field it is unapproached.

Reliable Market Reports and Statistics of Imports and Exports of all Paper and all Raw Material used in the manufacture of paper.

Notes on Trade and Manufacture at Home and Abroad.

New inventions, new works, etc., fully described.

A Technical Department edited by a specialist.

The new management of THE PAPER TRADE JOURNAL have recently moved their offices downtown. They are now centrally located at 150 Nassau Street, just off of Printing House Square, easily accessible from every portion of Greater New York.

Another marked improvement is the change in form of THE JOURNAL, in June last, to a smaller, more modern, and convenient size.

The Chemistry of Paper Making

By R. B. GRIFFIN and A. D. LITTLE.

Octavo, 532 Pages. Illustrated. Price \$5.00 Pospaid.

"An epoch in paper making technology is marked by the publication of 'The Chemistry of Paper Making.' * * * No work of this kind has appeared before, strange as it may seem, and as a contribution to industrial science it will rank among the leading publications of the day."—*The Paper Trade Journal*.

This handbook is practical and hence of great value to the Trade. Hundreds of copies have been sold. A copy of this book should be owned by every person interested in the subject.

ALSO OF
The Farnsworth Patent Drum Winders for Wide Machines.

OUR PATENT BEATER AND MIXER.

With our improved construction added during the past few months makes it superior to all other beaters made. Not only in beating the stock quickly and without heating, but also in emptying and washing out, which all consumes time. Our double lighter arrangement is very quick, and arranged with very little friction, so that it is exceedingly easy to handle. We build these engines in pine, cypress, or iron, to suit the purchaser. We guarantee, if the construction is left to our judgment, to furnish a perfect beater.

HOLLAND BEATING AND WASHING ENGINES—BUILT ON LINES SUPERIOR TO ANY OTHER MAKE.

FARREL FOUNDRY

ANSONIA,

Chilled and Dry Sand Rolls for all Purposes.

We call attention to our improved box housings shown above, insuring greater strength and rigidity than can be obtained in web design. This is especially desirable in the 12 and 14-roll stacks for news machines.

NOTICE system of bevel gears, worms and worm gears, vertical and cross shaft (patented) by means of which the rolls may be lifted by one man standing on the floor. The adjustments are made in the usual manner, but one man raises the rolls from below instead of two or four men above. The advantage, in a high-speed machine particularly, is very great.

The Paper Trade Journal

FOUR DOLLARS A YEAR

It is Indispensable to all Interested in Paper

EVERY MAN IN A PAPER MILL NEEDS
IT, FROM THE SUPERINTENDENT OR
MANAGER TO THE APPRENTICE ✱

Every manufacturer of PAPER, every man who BUYS PAPER, or pulp or raw material of any kind, used in the manufacture of PAPER, will find THE PAPER TRADE JOURNAL invaluable.

Every man who SELLS PAPER or paper mill supplies of any kind needs it.

Every BUYER OF PAPER, or paper stock, or paper-making material of any kind, will get invaluable information every week from THE PAPER TRADE JOURNAL, and hence should not be without it.

Every manufacturer of machinery of any description used in Paper Mills should subscribe for and advertise in THE PAPER TRADE JOURNAL.

IT IS INDISPENSABLE TO PAPER MAKERS
PAPER MERCHANTS
MACHINE BUILDERS

And all others directly or indirectly interested in the Paper and Paper
Stock Trades

IMPORTANT FEATURES

Established in 1872, THE PAPER TRADE JOURNAL is the pioneer publication in its field, and has for years been the recognized organ of the American Paper Trade. As a medium of information in its field it is unapproached.

Reliable Market Reports and Statistics of Imports and Exports of all Paper and all Raw Material used in the manufacture of paper.

Notes on Trade and Manufacture at Home and Abroad.

New inventions, new works, etc., fully described.

A Technical Department edited by a specialist.

The new management of THE PAPER TRADE JOURNAL have recently moved their offices downtown. They are now centrally located at 150 Nassau Street, just off of Printing House Square, easily accessible from every portion of Greater New York.

Another marked improvement is the change in form of THE JOURNAL, in June last, to a smaller, more modern, and convenient size.
